what is ready steady lounge?

Ready Steady Lounge is a fun kind of quiz - a big feature laden airplane lounge type thing with various rounds.

If you have not flown *RSL* before some of the language in this manual will be new to you. If you are a regular flyer then please feel free to jump on to the next section.

In *RSL* speak: 'a flight' is the quiz rounds and features and 'the cabin crew' are the producers and presenters. Think airplane and everything should suddenly make perfect sense. Or if you prefer you can use the glossary at the back of the manual.

Anyone wanting to become *RSL* cabin crew should read on and learn. Anyone merely curious should read on and relax. But whichever is the case - enjoy the flight.

cabin crew

The cabin crew are the people who make *RSL* happen.

Choose your cabin crew - or fellow cabin crew - carefully. *RSL* cabin crew must have *RSL* attitude. They must be ready they must be steady they must be lounge. The optimum number of cabin crew per flight is three. The best kind of cabin crew is three friends out to take on the world.

Pre-flight the cabin crew are the researchers, the scriptwriters, the producers and the directors of each and every *RSL* flight.

During the flight the cabin crew become the air hosts and air hostesses who look after the passengers.

At all times the cabin crew are *RSL* ambassadors and the passengers' comfort and entertainment is always their paramount consideration.
